

**2003 I-CAR INTERNATIONAL ANNUAL MEETING - AWARD PROFILE:
NORTHEAST REGION**

**By I-CAR Northeast Field Manager
David Coffey**

**Instructor of the Year Award -
Edward Dinkler**

Congratulations to Edward Dinkler for winning the 2003 Instructor of the Year Award for the I-CAR Northeast Region! Ed has been an instructor with I-CAR since 1982 and teaches almost every Enhanced Delivery course that is available. He has already earned the I-CAR Founders Award and now, for the first time, has achieved this great achievement!

Northeast Field Manager Dave Coffey presents the Instructor of the Year Award to Instructor Edward Dinkler (left).

Due to Ed being involved with the development of many Enhanced Delivery courses and his dedication for a positive impact on his students, many specifically request him to instruct future courses. Ed particularly enjoys teaching the new Steering and Suspension course!

For the past few years Ed and his instructing partner Bob Ormsbee, better known as the Dynamic Duo, have taught in the following states: New Jersey, Delaware, New York, Pennsylvania, West Virginia, Connecticut and Massachusetts. They recently taught in Massachusetts to an enthusiast class of 135 students, one of the largest groups that any I-CAR instructor has taught! No matter what state they are in or which program or course they are instructing, they are making a positive impact within the industry.

I-CAR Northeast Field Manager David Coffey said, "Ed ends his voice mail answering message with the phrase 'Make it a great day,' and I believe this exemplifies what type of incredible, positive attitude Ed carries in both life and work. We are very fortunate to have such an enthusiastic individual be involved with the industry for so long because this positive energy will only transfer over to the people he is around."

Congratulations on your award Ed!
